PROFILE

Dedicated Computer Science student with a strong interest in technology and software development. Skilled in HTML, CSS, Java, and Python through continuous hands-on practice. Maintains a strong academic record and shows a proactive approach to learning new technologies and improving technical expertise.

EXPERIENCE

- **Front-End Web Development** 08/2025 – 09/2025
  Edunet Foundation | IBM Skillsbuild

  During the internship, developed a Smart Study Planner to support effective study planning.

- **Java Tech Stack** 11/2025 – 01/2026
  Infosys Springboard

  Developed VolunteerHub, a full-stack web application for efficient event and volunteer management during the internship.

CERTIFICATIONS

- **SAP Certified Associate - Back-End Developer - ABAP Cloud**
- **Salesforce Certified - Agentforce Specialist**
- **Java Foundation Certification – Infosys Springboard**

PROJECTS

Food Calorie Tracker

- Front-End Web App for tracking food calories.
- Created an interactive food calorie tracker focusing on Indian meals.

VolunteerHub

- Developed VolunteerHub, a full-stack web application for managing events and volunteer registrations.

Smart Study Planner

- A web application that helps students create study schedules, organize tasks, and track their learning progress effectively.

HACKATHONS

GDG On Campus Solution Challenge

- Participated in the GDG On Campus Solution Challenge, developing innovative solutions using Google technologies.

Agentathon 2025

- Participated in Agentathon 2025, worked on real-world AI agent ideas, and learned through hands-on collaboration.

SEMINARS/WORKSHOPS

PowerBI Workshop - Office Master

- Over the course of the workshop, I learned how to build AI-Powered, interactive dashboards that visualize data in impactful ways.
